## Service Description

***Surf's Up! events* provides indoor surfing  
anywhere, anytime and anyplace!  
No swimsuits required! No prior surfing experience necessary!**

***Surf's Up! events*** offers a unique surfing competition experience! We can run your event like a surf contest with trophies and faux flower leis for the top three scores; or simply provide a very unique activity for guests of any occasion.

Participants stand on a genuine surfboard made in Hawaii, which is elevated by a foam cushion and has a patented wireless sensor inside. The interactive and realistic surfing video game is projected onto a large screen. When you *move* the surfboard from side to side, the surfer on the screen moves up and down the wave. The system scores your performance and only the surfer on the screen wipes out – you're safe and dry on the mainland!

***Surf's Up! events*** is mobile and can set up and operate almost anywhere an electrical extension cord can reach. The minimum footprint required is 10' x 12' when utilizing one of our front projection screens (note that ambient lighting is required for front projection). We can also operate with an LCD, plasma or standard TV screen if you have minimal space or bright lighting; whatever your situation requires!

***Surf's Up! events*** is ideal for company parties, team building and annual conferences, as well as grad nights, birthdays, mitzvahs and beach-theme weddings. Simulated surfing requires some body weight; therefore, it is not recommended for youngsters under the age of 9.

Pricing for ***Surf's Up! events*** varies depending on the location and number of expected participants, so please contact us directly for a specific quote. We provide two surf instructors, trophies and keepsake leis for the top three scores. Additional charges may be incurred for travel time, parking fees and set-up requirements earlier than one hour prior to start time. Please call us at 562-366-8635 or email [SurfsUpevents@yahoo.com](mailto:SurfsUpevents@yahoo.com) to discuss how we can make your event unique and memorable!

**Catch the coolest wave around with *Surf's Up! events***
